

About Us

Educrat IAS Academy offers India's best mentorship for Civil Service (UPSC) examination. Mentored by talented Officers posted in Kolkata and expert faculties from Delhi, we provide a conducive yet disciplined and a sincere learning environment.

We provide extensive and holistic preparation for all the exams covered under CSE which are conducted by UPSC. Our teaching modules during our UPSC classes are aligned with the demand of the exam i.e, Syllabus and recent Question Papers. The integrated approach of our classes focuses on all three stages of the Examination – Prelims, Mains and Interview at one time, where through interlinking of topics of different subjects, a holistic opinion is developed. The batch size is kept small so that each aspirant gets the personalized attention he/she deserves.

We follow the 70-20-10 model, where 70% of the teaching is imparted through Offline classes, 20% through our mentorship program and the rest 10% through regular Mock tests.

The syllabus for IAS examination is vast and requires a smart approach in order to cover the entire syllabus in a limited time. For this we emphasize on our unique three mantras for success – Limited Resources, Multiple Revision & Maximum Test Practice.

We provide all the necessary books along with the basic NCERTs. Our monthly Current Affairs magazine made from The Hindu, The Indian Express & PIB, is a brief and lucid compilation of Daily News Analysis (DNA for Mains) along with Prelims Booster – a 50-word synopsis on all important facts and places in news which are important for Prelims. It also includes a set of MCQs for practice along with a list of Places in news with Map Location.

Mock Interview GUIDANCE Program

DAF Sessions

Sessions specifically designed to assist you with the detailed application form (DAF), with an emphasis on the selection of services, cadre choice, interests, achievements, extracurricular activities, etc., will be held by previous year's top performers, ex-bureaucrats, and those now in service.

Panel Mocks

A experienced panel of former and current government employees, subject matter experts, and other eminent figures from various fields to give you a feel for the interview board that is remarkably accurate, along with full feedback and recordings.

One to One Mocks & Mentorship with Civil Servants

A good chance to gain a thorough evaluation of your responses and preparation by the officers to improve the interview scores significantly. The most crucial part of the interview is your one-on-one conversation with the officers, who will point out any gaps in your preparation and help you close them.

DAF Questionnaire

Detailed discussion of your DAF with emphasis on potential concerns and queries. The DAF discussion assists you in analysing your DAF, anticipating likely interview questions, and preparing for them. The mentor will assist you in creating a question bank that includes information on your home country and state, prior schooling, professional experience, interests, and other factors.

Current Affairs

The most significant area from which Panel members source their inquiries is current events. You must have studied current events for your mains and preliminary exams, but the interview's question format is different. To address this, highly concentrated sessions will be held to give you an analytical viewpoint on crucial current affairs themes and to get you ready to answer questions from the interview panel.

Open Mocks

Educrat IAS Academy has created a special method that will greatly boost your confidence. Mock interviews are held during this procedure in front of other applicants. You can learn the frequent errors to avoid during interviews in front of the board by watching how others present their interviews. You can cultivate the proper attitude for the interview by participating in open mocks.

Think, Rethink and Perform

A weekly programme designed to act as your regular dosage of self-evaluation by asking you probing questions about your personality and keeping you on your toes with analytical questions about the news to help with your preparedness.
